# Parking App

Flow corrections

For Staff Login

- After selecting STAFF, this screen is shown.
- The logo will have to be changed.

- In first release, This screen is not required since the default functionality is that of Exit Attendant. So, bypass this page and by default, "End parking" functionality will be used. **Do not remove the "Start Parking" functionality, we will need that later.**
-

- The following buttons should be shown in sequence –
  - Scan QR
    - For non-members who don't have cards but have Token from Parking Dispenser.
  - Read Card
    - For members who have card
  - Lost/Damaged parking token
    - For parking users who's parking token is lost/misplaced or QR could not be read.
  - Search Vehicle number
   - This will be hidden for first release.

- Slot number to be hidden
- Entry Time and Exit Time should show dd/mm/yyyy hh:mm format
- "Exit Type" to be corrected to "Exit Time"

- Payment modes will be only –
  - **Pay by Cash**
  - **Pay from Wallet**
    - Applicable only to members (card holders)

- If "Pay with cash " selected, then show below screen –

- If "Pay with Wallet " selected, then show below screen –

A new screen to be shown for displaying :

Wallet Balance : xxxx

Parking Charges : xxxx

"[Button] "**Deduct from Wallet**"
(this button will show "Deduct from Wallet" when Wallet balance is positive.
Else the button will show **"Pay by Cash"**
A Message label above the button should read –
"Wallet Amount insufficient!"

- After deduction of charges, Show the screen on the left side.

Clicking this button should print a receipt.
The format will be shared showing the parking details
